

Safety mixer 7997550

Lead-free thermostatic safety mixer for delivery of tempered water to eye/face- and emergency showers

With cold water bypass in case of hot water loss. Factory set temperature at about 29° C with an adjustable range of 15-35° C.

Lead-free brass housing with corrosion-hardened and lead-free internal components. Integrated check valves and particle filters on cold- and hot water connections.

Product data

Part No:	799 7550
Flow (tempered):	133 l/min vid 207 kPa
Max pressure:	861 kPa
Max water temp:	82° C
Set temp range:	15-35° C
Min hot water:	3° C above set temperature
Cold water bypass:	94 l/min vid 207 kPa
Connections:	Inlet DN20, Outlet DN25
Dim (width/height/depth)	280 / 250 / 85 mm
Weight:	4,7 kg
